ELEVATED IT Ltd
TECHNOLOGY THAT ENABLES GROWTH

SELECTED ENGAGEMENTS / FOUNDER CAREER EXPERIENCE

Acquisition Integration Programme

Seven acquisitions integrated

~6,500 users supported through integration activities

OVERVIEW

A UK-based organisation pursuing growth through acquisition required technology integration support across multiple acquired businesses, with minimal disruption and continued operational service.

CHALLENGE

- Multiple Microsoft 365 environments and identity platforms
- Different email systems, support processes and infrastructure standards
- Increasing operational complexity and user friction

APPROACH

- Technology assessment and platform evaluation
- Identity consolidation and Microsoft 365 integration planning
- Service desk alignment and infrastructure standardisation
- Stakeholder engagement and business-led decision-making

OUTCOMES

- Seven acquisitions integrated
- Approximately 6,500 users supported through integration activities
- Improved platform consistency and service delivery alignment
- Reduced operational complexity

CAPABILITY AREAS

M&A; Technology Integration · Microsoft 365 · Identity & Access Management · Service Integration · Technology Leadership
