ELEVATED IT Ltd
TECHNOLOGY THAT ENABLES GROWTH

SELECTED ENGAGEMENTS / FOUNDER CAREER EXPERIENCE

Microsoft 365 Migration & Cloud Transformation

40,000+ accounts

Migrated across founder career projects

OVERVIEW

A large-scale programme modernised legacy technology platforms while protecting business continuity, data integrity and the user experience.

CHALLENGE

- Migration from legacy infrastructure for a large user population
- Security, resilience and operational continuity
- Long-term scalability and user adoption

APPROACH

- Microsoft 365 migration and identity transition
- Exchange Online adoption and cloud platform modernisation
- User communication, change management and phased delivery
- Operational readiness and post-migration support

OUTCOMES

- More than 40,000 accounts migrated across founder career projects
- Multiple Microsoft 365 environments transitioned
- Improved collaboration and modernised cloud services
- Reduced technical complexity

CAPABILITY AREAS

Microsoft 365 · Azure · Cloud Transformation · Change Management · Enterprise Migration

Representative work from founders' prior careers; not projects delivered by Elevated IT Ltd.
